Dr. Jaime Smith
Klien University Hospital
809 Rosedale Avenue
Philadelphia, PA 19019

Dear Dr. Smith,

Thank you for meeting with me this afternoon to discuss the *research associate* position in your lab. I appreciate the opportunity to interview and enjoyed our discussion about the role of telomeres in human aging.

Our conversation confirmed my interests in becoming part of your lab. I am excited about having a chance to possibly co-author articles about the molecular biology of aging. As I mentioned in my interview, I recently participated in the Summer Science Research program at Bryn Mawr College and was able to present my research to faculty, staff, and students at a local conference. Additionally, I am skilled in cell culture and next generation sequencing techniques as well as cloning and preparing reagents and culture media.

I am confident that my professional and academic experiences make me an excellent match for the *research associate* position. Should you require additional information in support of my application, please contact me at maria.walker123@gmail.com or (610) 888-0000.

I look forward to hearing from you regarding your hiring decision. Again, thank you for your time and consideration.

Best regards,
Maria L. Walker
