## "Topics in general relativity"

Monday, April 18, 2016

Talk at 4:00 – H109

Tea at 3:30 – KINSC Math Lounge, H208

### **Abstract:**

I will present modern topics in general relativity that are of interest to pure mathematicians. These include questions regarding black holes, spacetime singularities and gravitational waves. I will strive to present all these in an accessible way. No prior knowledge in general relativity is required.
